

Welcome Peerless Whiskey for Club Members! Peerless Kentucky Straight Bourbon and Peerless Kentucky Straight Rye Whiskey were originally made by Worsham Distillery in Henderson Kentucky in the early 1880's.

Peerless has been family owned for 5 generations and now resides in Louisville. It was revived by the 4th and 5th generation of families in 2013. They are considered a craft distillery and produce their own bourbon and Rye from grain to bottle. Both whiskeys are "small batch". The bourbon comes in at 109.2 proof, and the Rye comes in at 111.6. Both are amazing drams, the Rye is considered by many a "bourbon" drinkers rye, so don't break intimidated by this rye, it is very approachable on its own or in a cocktail.

During prohibition, Peerless was one of the few available by prescription for medicinal use. Not many whiskeys today can brag about that. Another fun fact about peerless, distilleries in Kentucky are given a Distillery Plant Number or a DSP. Peerless was given the DSP # 50, for reference there are at least 20,000 DSP numbers now.

So, they still retain and have on every bottle, DSP-KY-50. Kind of cool to have that number still associated with the distillery.

Peerless Bourbon is normally \$16 a dram

Peerless Rye is \$19 a dram.

These will both be available to society members for -\$4 off a dram.

If you want to try both, you can get a flight of both, 1/2 oz pours of each for \$15. As usual, last month's whiskey is available all month to you at a discount as well. Next month, June 6th is our 12th Year Birthday!
