

We have had a few stellar events at the pub lately. Looking forward to our 13<sup>th</sup> Anniversary coming up in June.

In March for our 12<sup>th</sup> Annual St. Patrick's Day Celtic Celebration, we had luck on our side with the sunshine. What a crowd pleaser for a proper send into Spring/Summertime.

In February we had our Whistle Pig representatives join us in doing a whiskey and food pairing that hosted a full whiskey history with all the senses courses. Club members had a treat as it was well received. If you missed this pairing join us next time!

This month for the club we are featuring Powers Irish Whiskey. I cannot believe we have never featured this whiskey. It is one of our best and probably most underrated Irish Whiskey's on the shelf. This whiskey is made by the Irish Distillers group (Basically Jameson) which is owned by Pernod Ricard. Powers was the first ever bottled Irish whiskey.
