ABOUT US

At Yardbird, our famous fried chicken is the heart of our Southern hospitality, celebrated by culinary giants like James Beard and Bon Appétit. Our menu reflects cherished family recipes and genuine warmth, capturing the essence of Southern charm. From our vibrant Miami Beach origins to our global expansion, we've remained committed to culinary excellence, honoring timeless American classics while embracing innovation.

DESIGN CONCEPT

Yardbird Denver is composed of three, interconnected warehouses surrounded by a sprawling patio, and offers an array of F&B experiences. Rockwell Group has maintained many of the iconic Yardbird design features found in the Dallas, Washington D.C. and Chicago locations, while adding new programming elements such as an underground speakeasy and outdoor lounge to suit its newest city.

The restaurant's design draws heavily on the unique character of the historic warehouse buildings, highlighting original 19th century ceiling beams, columns, and brick to create a contemporary industrial farmhouse atmosphere. The design concept and dining experience represent an experiential progression through a rustic and modern Southern home, taking guests through layers of experience and materiality from the "front porch" to the "living room." Hand-painted graphics, antique mirrors, architectural lighting, rich finishes, and industrial elements create an elevated yet festive atmosphere evocative of a rustic soul food aesthetic and Southern residential hospitality, while bringing in the vibrancy of the surrounding RiNo neighborhood.
