PRIVATE DINING GUIDE

Juno *the* Peacock

From intimate celebrations to milestone gatherings, Juno & the Peacock offers a variety of private and semi-private dining spaces designed to make your event unforgettable. Each setting pairs our coastal-inspired cuisine with warm hospitality and thoughtful details tailored to your occasion.

Juno & the Peacock draws its name and inspiration from Aesop's fable, a timeless tale of beauty, pride, and the value of substance over show. Here, we embrace that philosophy through New American coastal cuisine that honors the purity of its ingredients. Each dish is simply prepared to let the natural flavors shine, crafted from responsibly sourced seafood, farm-fresh produce, and sustainable provisions.
