

Apotheke Story

For over 17 years, Apotheke has been testing, tasting, creating and collaborating-combining chemistry with artistry and blending creativity with craft—to offer Apotheke patrons exceptional cocktails.

The story of Apotheke began with its old world apothecary roots and modern medicinal mixology on the quiet streets of the Bloody Angle in Manhattan's Chinatown.

Today, Apotheke has evolved into a bustling brand and is known as one of the most renowned cocktail experiences in New York City, Los Angeles, and beyond.

Inspired by the rise of the apothecary in Europe and the artistic influence of absinthe dens in nineteenth-century Paris, Apotheke stands alone in combining globally recognized design, one of a kind cocktails, and top-notch service.

Welcome to Apotheke NoMad
