

# APLÓS

## Dragon Fruit Martini

**Ingredients:** Aplós Arise, dragon fruit, kiwi, black tea, lemon verbena, and sarawak peppercorn.

**Moringa, L-Choline Bitartrate, Ginseng, Vitamins B12 & D3**

**Some of you may remember our wine club tasting in January, where we had a chance to explore a new, rapidly evolving area of the beverage industry: NA Alternatives.**

**NA can mean many things, whether it's an intentional replacement for alcohol or simply a new drink to add into the rotation alongside the usual suspects (coffee, tea, soda, etc). But one thing we know is that is certainly doesn't have to mean *boring*.**

**This month we're giving the Aplós folks a chance at earning a spot in our fridges. Let us know what you think!  
Honestly, we think it makes a great mixer for vodka, but that's just us ;)**

**Cheers,  
The Boia De Team**
